### **ELECTRONIC INVOICE / INTERNET PAYMENTS**

TBYC invoices can be sent to you via e-mail. You may also pay TBYC invoices *through your internet banking*. Simply go to your current online banking website and add TBYC to your list of payees. Your TBYC account number will be your phone number (e.g. 8075771234) as directed on the Bank site. It is important that TBYC has your current e-mail address for such billing. If you wish to use this convenient service, please send your e-mail address to Terry Cano, TBYC Treasurer, at [tcano@shaw.ca](mailto:tcano@shaw.ca) This is another way to save both you and the club money and it reduces the work load of our volunteer Treasurer by a substantial amount!

## **Local Destinations**

### **Isle Royal**

Isle Royale's physical isolation and primitive wilderness challenged human use for centuries; ironically today it has become the Island's main attraction. Accessible only by boat or seaplane, visitors come to experience this island park through hiking its trails, paddling its inland waterways, exploring its rugged coast, or venturing into the depth of its shipwrecks. The national park is open from mid-April to 31 Oct. Full transportation is available from mid-June through Labor Day. The park is closed 01 Nov to 15 Apr. Visitation is highest in late July through the third week of August and lowest in April to May and October.

The Ranger III, located in Houghton, Michigan, is the largest ship owned and operated by the National Park Service. It is also the largest ship which supports and provides transportation services to Isle Royale National Park. Reservations, requests for anchorages or campsites and information on rates and schedules can be accessed online.

What to expect?

Lake Superior weather is cool throughout the season, causing dense fog in spring and summer months. The lake's water temperature rarely exceeds 52 degrees Fahrenheit, while Island temperatures rarely exceed 80 degrees. Thunderstorms and rain occur throughout the season, causing rapid changes in wind and wave conditions. Weather and rough seas rarely delay departures to and from the island. <http://www.nps.gov/isro/index.htm>
