

## **Crew Development Program Being Offered Again for 2017**

The Race Committee is pleased to announce that the Crew Development Program will be offered this spring. This program will be of interest to our racing crews who wish to advance their understanding of the boatspeed, tactical and strategic issues that arise on the race course. In short it is directed to skippers and crew members who wish to up their game.

Our belief is that an increased understanding of the decisions that are made on the race course will make our sport more fun and enhance the contribution that our crews can make during a race.

The course is scheduled to be held on the last three Wednesdays in April, just in time to prepare for the upcoming racing season. It will be held at the Mission Clubhouse from 6:30-9:30 in the evening. The cost remains at \$50.00 per student. Pre-registration is required.

**For more information and registration, please contact Bill Dunlop at 768-5885.**
