

TBYC Launch Dates

The Mission Property yard water is on and launch begins on Tuesday, May the 9th, weather and yard conditions permitting.

Launch days will be Tuesday, Thursday, Saturday, and Sunday between 10:00 am and 5:00 pm. When booking your launch please group the appointment times.

If you have antifreeze in your engine it must be pumped out before you launch. Barrels for waste antifreeze are located on site, please use them.

To launch, your current insurance must be on file with the Club and your account must be current, no exceptions.

Also, this is a good opportunity for volunteer hours. Clean up your storage area before you leave and log your hours in the "Volunteer Hours" book located in the clubhouse.

Have a great boating season.
